Work experience

MeDirect Bank

Software Engineer, Jan 2026 - Present

- Part of the Frontend team developing and maintaining multiple MFEs including Client Profile, Client Restrictions, Cards, Campaigns, and Onboarding to name a few.
- Integrated frontend applications with REST services and contributed to a micro-frontend architecture across multiple internal platforms.
- Led and participated in internal technical meetings within the team and across wider departments.

Tech Stack: React, Vue 3, Vuex HTML, Tailwind CSS, REST APIs, GoCD, Flagger, Jest, Git, Agile

Betsson Group

Software Engineer, May 2022 - Jan 2026

- Part of the onboarding team responsible for multiple CMS tools used internally for promotions and blogs.
- Led several internal meetings both within the team and across the wider area.
- Advocated for personal project time, knowledge-sharing sessions, and self-improvement initiatives.
- Encouraged quarterly goal reviews to help team members define clear growth objectives and advancement paths.
- Assisted heavily with team lead responsibilities including sprint management, technical interviews, and cross-team meetings.

Tech Stack: StencilJS, PHP, WP, SQL, Angular, AWS, Docker, Kubernetes, Jest, Grafana, Git, Agile

Uniser Soc. Coop. Onlus (Erasmus)

Junior Developer, Jan 2022 - Mar 2022

- Collaborated with developers in user testing a new educational recruitment system.
- Developed a practical understanding of Agile methodologies.

Tech Stack: HTML, SCSS, Git, Agile, Unit Tests

Education & Learning

Bachelor of Science in Software Development

Institute of Information and Communication Technology, MCAST, Oct 2018 - Jun 2021

- Gained practical experience in multiple programming languages and cross-platform development.
- Developed full-stack applications using C#, ASP.NET, and SQL for both academic and personal projects.
- Applied core principles of data structures and algorithms to optimize application performance.

Tech Stack: JS, Java, C#, C, Python, HTML, CSS, PHP, SQL, DSA, Git, Agile Methodologies

Erasmus+ HE Certificate of Study Period

Latvia University of Life, Sciences and Technologies, Jelgava, Aug 2019 - Jan 2020

- Collaborated with international peers on cross-cultural software projects.
- Explored technologies uncommon in Malta, such as Large Database Management Systems, and integrated them with ASP.NET to build a comprehensive skill set.

Tech Stack: Oracle, ASP.NET, SQL, HTML, CSS, Lean Methodologies

Technical Skills

- HTML / SCSS / JS
- Docker
- Kubernetes
- WP Development
- SQL
- AWS EC2 / ECS
- Terraform
- Ansible
- Figma
- StencilJS
- React
- Angular
- Typescript
- Jest
- Grafana
- Splunk
- Git
- ExpressJS

Languages

- Maltese: C2
- English: C2
